Exkurs : Eine neue Version von Openlayers

 OpenLayers 3

[Docs](#) [Examples](#) [API](#) [Code](#)

A high-performance, feature-packed library for all your mapping needs.

LATEST

OpenLayers v3.8.2 is here! Check out the [docs](#) and the [examples](#) to get started. The full distribution can be downloaded from the [release page](#).

If you've come here looking for OpenLayers 2.x information, you'll find everything you need on the [2.x page](#).

FEATURES

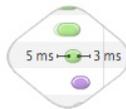

Tiled Layers

Pull tiles from OSM, Bing, MapBox, Stamen, MapQuest, and any other XYZ source you can find. OGC mapping services and untiled layers also supported.

Fast & Mobile Ready

Mobile support out of the box. Build lightweight custom profiles with just the components you need.

Vector Layers

Render vector data from GeoJSON, TopoJSON, KML, GML, and a growing number of other formats.

Cutting Edge & Easy to Customize

Map rendering leverages WebGL, Canvas 2D, and all the latest greatness from HTML5. Style your map controls with straightforward CSS.

Beispiel Schweizmobil

The screenshot displays the SwitzerlandMobility website interface. At the top left, the logo "SwitzerlandMobility" is accompanied by a Swiss flag and icons for various activities: hiking, cycling, mountain biking, canoeing, and rail/bus/boat. Below the logo is a search bar with the text "Search... Place Route Service Coord." and buttons for "Map", "Photo", and "Grey". A vertical sidebar on the left contains several filter categories, each with a colored bar and a plus sign: "My tours" (red), "Hiking In Switzerland" (green), "Cycling In Switzerland" (blue), "Mountainbiking In Switzerland" (yellow), "Skating In Switzerland" (purple), "Canoeing In Switzerland" (teal), "Rail | Bus | Boat" (grey), "Accomodation" (light grey), "Services" (light grey), and "Weather" (light grey). The main area is a detailed topographic map of Switzerland, showing cities, roads, and terrain. The map is overlaid with various colored lines representing different travel routes or services. At the bottom left, there is a "Partner:" section with logos of various Swiss municipalities and organizations. At the bottom right, there are navigation controls including a compass, a zoom in (+) button, and a zoom out (-) button. The footer contains the text "Coordinates (m): | Geodaten © swisstopo (5704000138) | Impressum | Copyright & privacy policy | Contact | Legend".
